GALUCHO

Galucho is a privately held company specializing in the development of efficient solutions for its three business units: Agriculture, Transport Equipment and Spare Parts.

With 100 years, our history began in 1920 in São João das Lampas, Portugal, where Jose Francisco Justino, a young entrepreneur and our founder, specialized in the development of agricultural equipment.

Galucho rapidly grew and led the process of agriculture mechanization in Portugal and Spain. Due to their success, Galucho expanded its area of operations and dedicated itself to three main areas: agricultural equipment and transport equipment.

Currently Galucho continues to develop its activity on an international scale with production sites in Europe (Portugal) and Africa (Algeria). Our wide range of worldwide strategic partners also helps strengthen Galucho's presence as a global company.
